

BRUGES

the benchmark for luxury seating

Design in partnership with
James Theobald:

Working alongside most notably Theo Kalomirakis, James felt the need to design a more classical chair for use in their projects.

A timeless design was sketched and together with our master craftsman, the "Bruges" chair was created. Beautiful piped stitching follows the chair curves, while the back cushion is detailed with tufted buttons to complete the look.

high back

features:

Fine European leather collection: 4 leather grades ranging 70 colors. **Extensive fabric collection,** including suede, velours, chenille, ... Customer supplied leather or fabric option available.

Steel motorized incline mechanism. Lower back allowing for accoustical freedom, while not compromising comfort or support

A black or silver/grey **push-button control** module is seamlessly integrated into the armrest for operation of relax mechanism.

Hand-cut foam cushioning: with high-density foam, webbed backrest and zig-zagseat support, promises years of comfort and performance.

Custom made to order allows for vast range of personalization to fit individual home theater designs and user requirements.

Also available with **hi back** allowing for extra support featuring an **articulating headrest.**

Also available in manual version.
